

AMAZON SALES DASHBOARD

Dataset Analysis & Patterns Report

1. Kids Toy Car Sales

- Kids toy car sales are very huge in the United States.
- Even after India having the most kids population, it has only 311 in sales of kids toy cars, while the US leads with 1,401 in sales.
- **Reason:** US kids are mostly active on online shopping platforms like Amazon and Flipkart, allowing toys to easily reach them, which is a main reason for the sales gap.

2. Winter Jacket Sales Trends

- Winter jacket sales increased in the year 2021.
- From 2020 to 2024, the annual sales of winter jackets hovered around 380, but only 2021 saw sales hit 439, meaning sales increased by nearly 80 that year.
- **Reason:** The year 2020 had the coldest weather among the 5 years. Because the 2020 ending season and 2021 starting season had cold weather, sales increased. Customers bought winter jackets concluding that the cold weather would also increase in 2021.

3. High Spending Customer

- **Customer:** Pooja Kapoor is the highest spending customer, spending 547,832.64.
- **Buying Habits:** Pooja Kapoor bought the gaming mouse more times (19).
- **Analysis:** She may have a gaming shop or a computer and game-related shop.
- **Actionable Insight:** Sales can be increased by suggesting gaming-related projects to Pooja Kapoor.

4. Payment Method Preferences

- **Most Preferred:** Credit card and UPI transactions are the most preferred payment methods.
- **Reason:** Customers prefer these methods because online shopping platforms provide offers and discounts on them.
- **Least Preferred:** Cash on delivery is the least preferred payment method.
- **Reason:** Customers prefer this payment method less because there are no discounts and offers.

5. Brand Performance

- **High Performance:** Readmore has high performance (10,204).
- **Low Performance:** Homebase has low performance (9,795).

6. Yearly & Monthly Sales Revenue Patterns

- **Total Revenue:** Our total revenue is 91.8 M.

10. Most Cancelled & Returned Products

- **Cancelled Most:** The 4K Monitor was the most cancelled product (78 times).
- **Reason:** It is the costliest product in the dataset, so people may have cancelled their orders because of its price.
- **Returned Most:** The yoga mat was the most returned product (87 times).
- **Reason:** It is the cheapest product in the dataset, which may imply it is a low-quality product, explaining why people mostly returned it.
